Lonely Planet Review

Word of mouth is all it takes for this tiny unadvertised place to stay busy. Completely central and completely well priced, it's probably one of the best deals in town. But there are only a handful of rooms (all doubles, some with kitchens), so book well in advance.

The yellow, Western standard rooms are spacious and quiet, with smooth new light-wood floors, comfortable beds and raised ceilings. You'll also get free in-room Internet access and a free in-room continental breakfast (including a warm pastry), delivered on a cart by genteel English-speaking staff at whatever time you request. Sound good? That's because it is. Even though the Sunflower is small and usually pretty booked up, the personal attention and tranquillity make it easy to feel like you're the only guests there.

Author Tip

You can escape the maydan madness by continuing north on Kostolna and going left on Tryokhsvyatytelska. Enjoy the church bells and lack of traffic all the way to Mykhaylivska ploscha.
